SENDGRID ACCOUNT CREATION:

The screenshot shows the Twilio SendGrid dashboard for a user named 'Gobi Nath B'. The left sidebar contains navigation links: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area is titled 'Welcome, Gobi!' and includes a welcome message: 'To get up and running quickly, please follow the steps outlined below.' Below this is a blue banner that reads 'Send your first emails with Twilio SendGrid'. The primary task is 'Create a sender identity', which explains that a sender identity is the 'from' email address recipients will see. It offers two methods: 'Create a Single Sender' (highlighted with a blue button) and 'Authenticate a domain instead'. An illustration shows an email header with 'Your Business' as the sender and 'Ganesh@your-business.com' as the email address. At the bottom, a note states 'Please create a sender identity before sending your first email.'
